Weather protection and containment solutions

INSULATION  
SHEETING

[www.powerclad.com](http://www.powerclad.com)

## ACOUSTIC SHEETING

Size 2.2x10m

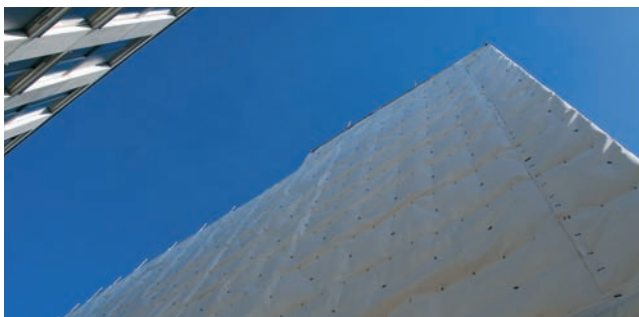

### Application

Sound Absorbing Sheetting to minimise noise emissions in sensitive environments such as inner city projects or construction sites adjacent to commercial or residential areas.

- Heavy duty
- Excellent sound reduction and absorption
- Flame Retardant
- Heavy duty eyelets
- BS 7955 compliant
- Extremely high tensile strength
- Cost-effective compared to blankets
- Production quality to ISO 9001

### Installation

- Extra wide for making overlaps
- Double row of eyelets on all edges
- Centre eyelets for guard rail attachment
- Made into panels for easy handling

### OUTSTANDING TECHNICAL PERFORMANCE

Grade	AIS FR Premium
Weight	900 gsm
Tensile Strength	2500 N/5cm
Flame Retardant	EN 13501-1 Bs1d0
